APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, place and manner of use of a portion of the waters of an underground source as heretofore granted under Permit 21890, Certificate 7248, is issued subject to the terms and conditions imposed in said Permit 21890, Certificate 7248, and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The permittee shall report to the State Engineer on a quarterly basis the effect of pumping the well under this permit on other previously existing wells that are located within 2,500 feet of the well under this permit.

Any pumping of water under this permit may be limited or prohibited to prevent any unreasonable adverse effects on an existing domestic well located within 2,500 feet of the well under this permit, unless the holder of this permit and the owner of the domestic well have agreed to alternative measures that mitigate adverse effects.

If any water under this permit is cancelled, withdrawn, or any water is not put to beneficial use, it will revert to the groundwater source and not back to the base water right.

The total combined duty of water under Permits 38343, 45870, 45892, 45893, 45894, 45895, 45897, 46116, 46117, 46118, 46119, 46304, 46305, 46306, 46307, 46308, 46309, 46310, 46312, 46313, 46314, 46315, 46316, 46317, 46318, 46319, 46320, 46324, 46325, 46326, 46826, 46827, 47074, 47141, 47265, 48497, 49545, 50722, 50804, 50805, 51142, 52128, 52129, 52130, 52131, 52132, 52284, 52285, 52606, 52978, 54357, 54359, 54360, 54361, 55101, 55347, 57877, 57879, 57880, 58626, 58627, 58628, 58629, 58630, 58631, 58632, 58633, 58958, 58959, 60694, 60695, 61064, 61065, 61188, 61968, 61969, 62037, 62038, 62716, 62717, 62726, 62920, 63500, 63780, 64367, 64615 and Permit 66228 shall not exceed 20,210.93 acre-feet annually.
